EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Wei Te Chung on 12/03/03.

2. The application has been amended as follows:

1. (Amended) A cable end connector assembly comprising:
 - a Serial ATA cable end connector including an insulative housing, and a plurality of contacts retained in the housing,
 - a IEEE 1394b cable end connector including an insulative housing, and a plurality of contacts retained in the housing; and
 - a cable inter-connecting the Serial ATA cable end connector and the IEEE 1394b cable end connector, the cable comprising, on a portion thereof, a metal braid divided into a number of parts each soldered to a corresponding contact of the Serial ATA cable end connector;
wherein the metal braid is divided into three parts, a first, fourth, and seventh contacts of the Serial ATA cable end connector are soldered to the parts of the metal braid.

Cancel claims 2 and 3.

5. (Amended) An interface cable assembly comprising:
a cable including four discrete inner conductors enclosed by inner insulative jackets, respectively, and further commonly enclosed in a braiding which is enclosed in an outer insulative jacket;
an IEEE 1394 connector including four contacts respectively mechanically and electrically connected to said four inner conductors at one end of the cable;
a serial ATA connector including seven contacts, four of which are respectively mechanically and electrically connected to said four inner conductors at the other end of the cable; wherein
said braid is split to three pieces mechanically and electrically connected to the rest three of said contacts of the serial ATA connector around said other end;
wherein said three pieces equally separate said four inner conductors into two groups and substantially shielding each of said two groups around said other end.

Cancel claim 6.

Art Unit: 2833

3. The following is an examiner's statement of reasons for allowance: the prior art fails to provide, teach or suggest one end of the cable inter-connecting the Serial ATA cable end connector and the IEEE1394b cable end connector having the metal braid is divided into three parts, the three contacts of the Serial ATA cable end connector are soldered to the parts of the metal braid.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
